

PAS BEA - Types of Booked Elective Admissions

There are five types of Booked Elective Admissions, each being a separate category according to the Department of Health definitions. These lists are:

Booked Elective Admissions .– Patients admitted from this list are those requiring operative intervention, but who are not given a date for admission when added to the list.

Booked List .– Patients admitted as booked are those given a date for admission at the time the decision to admit was made.

Planned List .– Patients admitted from this list as part of a planned sequence of clinical care. The date for admission is made largely on clinical grounds, especially the time required to respond to previous treatment. e g . check cystoscopies and endoscopies fall into this category.

Deferred/Suspended Lists ,– **Do Not use**, any queries please contact the Patient Access Team.

Medically Deferred/Suspended List (List 99) ,– **Do Not use**., any queries please contact the Patient Access Team.

Patient Deferred/Suspended List (List 98) ,– **Do Not use**, any queries please contact the Patient Access Team.
