## **Temporary Folders**

If you are tracering or have raised a Temporary Folder the comment **T F MUST** be entered into the first comments field and **1 of 1** in the **NumberNo of VolumesVols** field. Where **T F** is entered in the first Comments field no further entry regarding volumes is required in the second Comments field, unless there are multiple Temporary Folders in existence.

eXit/create Tracer/Change CoMment [ ]					

If the main notes are tracered whilst a Temporary Folder is in circulation then the comment **Main Notes (M N) MUST** be recorded in first comments field, until such time that the two sets of casenotes are amalgamated.

## Note the comment Main Notes must only be used if the Temporary Folder is still in circulation

An example of the tracer types recorded may be:

- Temporary Folder raised and sent to an outpatient clinic.
- Main Notes sent to the outpatient clinic.
- Temporary Folder and Main Notes have been amalgamated.
