

## DCCR - Is there a cost to organisations to use the system?

There are no user licensing costs for organisations.

There may be costs involved with an organisation providing data. This depends on how information can be shared with the Devon and Cornwall Care Record.

There may also be costs involved in establishing launch in context capability from an organisation's main application to the Devon and Cornwall Care Record.

There is no cost for General Practice to share information or access the Devon and Cornwall Care Record.

The programme team will advise on a case-by-case basis and will provide guidance on access to central funding to support this work.
