

DCCR - Community Services Information

Overview

Community information is currently provided by Livewell Southwest and University Hospitals Plymouth NHS Trust (UHP) and information, such as appointment information, referrals, allergies and problems will be available.

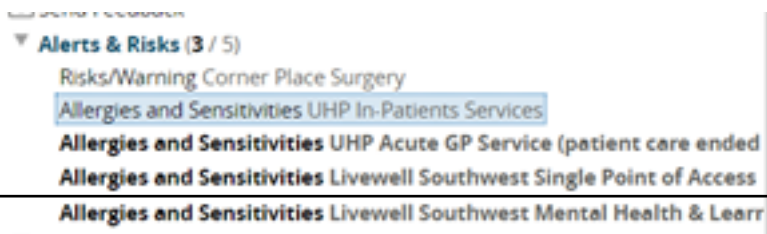

Viewing Community Information

There is no single menu item for Community data. Available information is accessed via the Clinical Document Viewer (CDV) tree as indicated in the table below.

Community information	CDV Tree Menu	Community services i
	Alerts & Risks	Current and historical adverse reactions
	Clinical Notes	Clinical items relating to health or wellbeing of
	Correspondence	Administrative items scheduling and admin
	Events	Encounters and refer
	Medication	Medication (last 12 months medication, current and repeat medication, all medication issues) and
	Observations	Observations such as

Problems	weight and height Active and inactive p issues relating to a pat their health and wellb
Summary Views	Summarised view of information within a s

Any CDV menu item that has information associated with it will expand when selected to indicate the source of the information. Selecting an item will then show the full detail within the main screen.
