

PAS Inpatient - unrelated admission

A screen will appear when trying to admit a patient that has **OUTSTANDING B E A / PRE-ADMISSION DETAILS**, displaying for each numbered row; the list, Consultant, specialty number, the intended procedure, the Treatment number (the patient's hospital CR number) and the TCI date.

You must select **Unrelated Admission (U A)** if the patient is not being admitted for the listed treatment and continue with the admission.

If the patient is being admitted for the listed treatment type **C A** for **Confirm Admission**, followed by line number to confirm and continue with the admission.

List	Cons	Sp	Intended Procedure	Treatment No	Tci date
1. BR	WIDAL	13	MASTECTOMY	123456 CR	
2. PS	BOWPW	05	SKIN GRAFT	123456 CR	14JAN19
