Inpatient Search

This option will allow you to view a patient's Inpatient stay. It will only display patients that have had previous inpatient episodes.

Type the **CR** number and press the return key. Or search for the patient using the methods described in the [PAS Patient Registration - Searching the Referrals Index](#) page for more information. The patient's demographic details will be displayed.

At the bottom of the screen a prompt to display Hospital Attendance is shown.

Type in **H A** and press return. The Hospital Attendances screen will appear.

Hospital Attendances screen commands:

OP

Outpatient episode

IP w

Inpatient episode via a waiting list

IP e

Inpatient episode - emergency

WL

Patient added to an Inpatient Waiting List

Ay & E

Accident & Emergency episode

DC

Day Case episode

NP

New Pending List – patient waiting for a new outpatient episode

FP

Follow-up pending list – patient waiting for a follow-up appointment

The Hospital Attendances screen displays both Inpatient and Outpatient events, but you will only be able to view in depth the Inpatient events from this option. Type **S E L** plus the line number of the episode you wish to view, for example **S E L 3**, and press the return key.

The screen now displays a history of what happened to the patient during that particular inpatient episode.
