This option will display a list of patients in alphabetical order, on a specified ward. It will also show the date the patient was admitted, the consultant and specialty the patient is under and the estimated discharge date.

Enter the ward code for your chosen ward. If you are unsure of the correct ward code either press the **F1** key to display a code list or enter the hospital code followed by the 1st letter of the ward name, for example Geevor ward at Treliske type TRG, and then press the **F1** key and select the relevant code.

Press the return key, type **Ay** and press return to accept.

If a highlighted + is displayed on the bottom left of the screen this indicates that there are more patients to be displayed on the ward. Type **P D** and press return to Page Down to view the remaining patients.
