

PAS Outpatients - Patient Initiated Follow Up Pending List (PIFU)

PIFU is a Patient Initiated Follow Up which lets patients initiate their own follow-up appointment when their condition requires it, rather than attending regular clinic appointments at timed intervals when they may not benefit from being seen. Patients identified for PIFU should be added to a specific follow-up waiting list under the relevant clinician. Ensure PIF is selected when choosing the follow up pending list.

```

Each patient should have a coded comment “PIF” added to the Remarks Field 10 to enable PIFU management to be monitored. **This field should not be over-ridden with any other coded comment.**

The clinician will provide a timeframe for the PIFU which should be recorded as “To be seen (TBS – due date).”

Follow Up Pending List: PIF – PATIENT INITIATED F/UP

1. Hospital Number C.R. Number: 123456
2. Consultant [ABCDE] DR ABC
