Adding Attachments

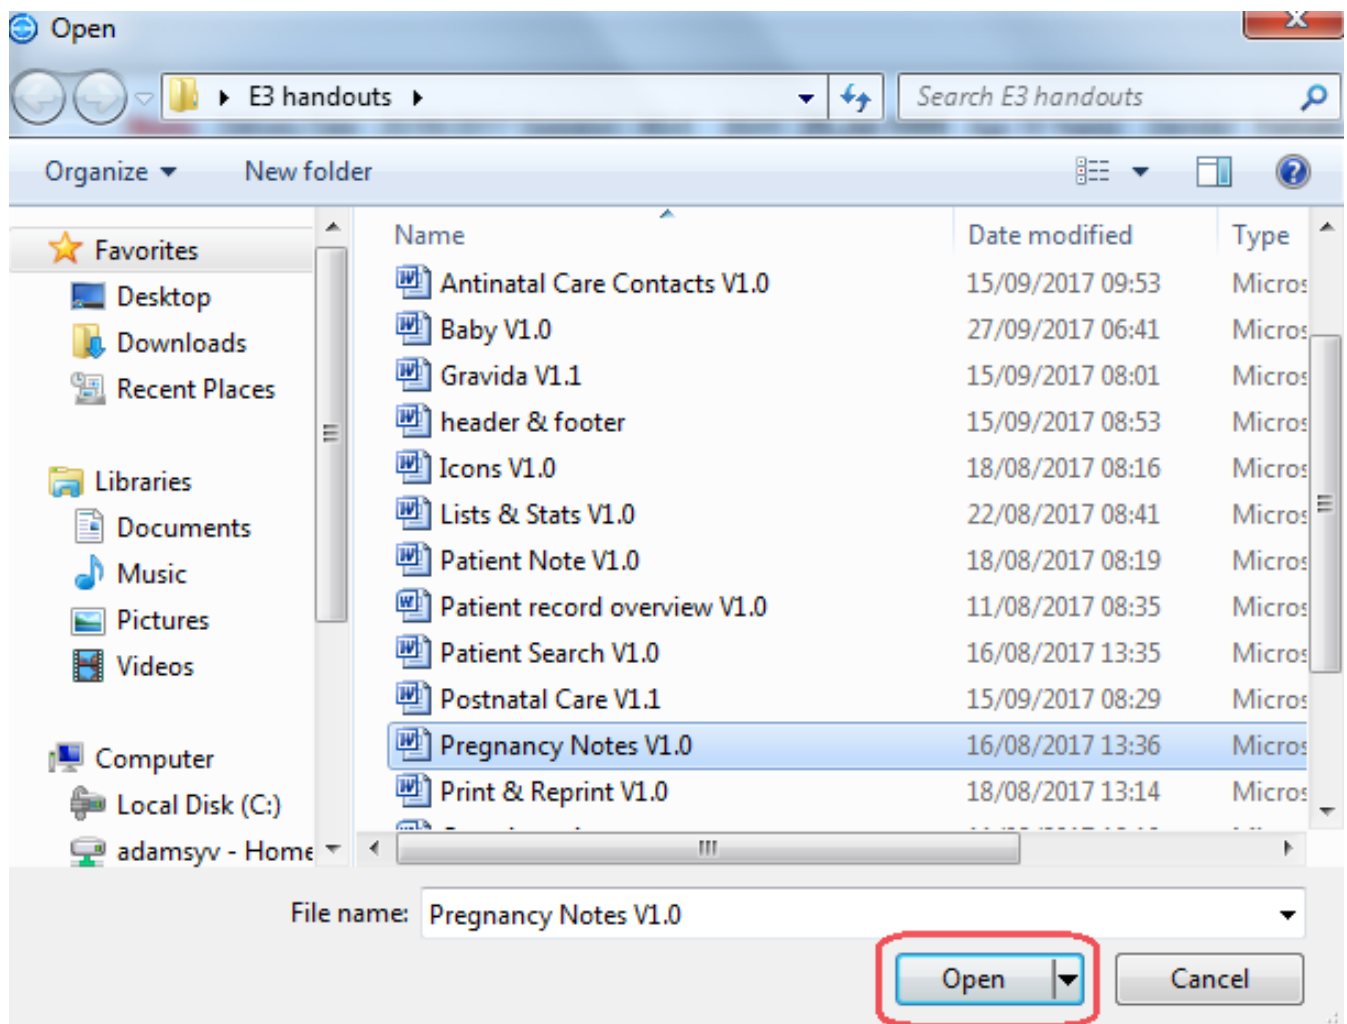

To add an attachment, such as a safeguarding document to a patient record click on 'Patient' on the toolbar and from the drop down list select Attachments.

Attached Documents box will pop up click on Attach New File button.

Select the document you wish to attach from your desk top and click the 'open' button. This will add the attachment to the patient record. This

attachment must be linked to a central folder which all users have access to such as the safeguarding folder on the Trust drive.

Attachments are displayed by document type and when last updated.

Open the document by clicking on the file name to highlight it, then click the Open Selected File button.
