

E3 - Patient Search

E3 Maternity System

Patient Search

From the home screen click on Search for a patient and enter the CR number in the Hospital Number field and hit enter or return.

You will only be able to enter information on an 'open' pregnancy.

For historic pregnancy data you will need to go through the archive icon to previous STORK details which will be read only. New patients in E3 will not have any previous closed pregnancies showing you will need to add the details manually in the Gravida and Parity hyperlink on the banner bar once you are in the patients record.

Remember if you use just a surname to search you will have 1000's of records to view. It is imperative you check you have the right patient, clicking on the incorrect record will open a pregnancy episode for the wrong patient.

The screenshot shows the E3 Patient Search interface. On the left is the 'Search Criteria' panel with fields for Hospital Number, NHS Number, Forename(s), Surname, Date of Birth, Age, and Delivery Date. A magnifying glass icon is highlighted in the top left. The main area displays a table of search results for 'Polly Perkins' with columns for Hospital Number, NHS Number, Forenames, Surname, Date of Birth, Gestation, Age, and three Address fields. A callout points to this table: 'Patient information displayed. Double click on the patient to open their record'. Below this is a 'Pregnancy list for Polly Perkins [Hospital Number : D000130]' table with columns for Status, Delivery Date, EDD Scan, Closed Date, and Closed Reason. A callout points to this table: 'Current and previous pregnancies displayed'. A third callout points to the search criteria fields: 'Enter CR number or complete the relevant search criteria fields then click the magnifying glass'.

Hospital Number	NHS Number	Forenames	Surname	Date of Birth	Gestation	Age	Address 1	Address 2	Address 3
D000130		Polly	Perkins	31/01/1988		29 Year(s)	The house	The Road	Truro

Status	Delivery Date	EDD Scan	Closed Date	Closed Reason
Open				
Closed	03/08/2015 11:52		03/08/2015	Past Pregnancy
Closed				Past Pregnancy
Closed		No scan performed	10/07/2017	Automatic Closure on Book

In the Search screen, the left hand panel is titled Search Criteria. Enter the hospital CR number or complete the relevant search criteria fields then click the Magnifying Glass icon on the top left menu to search.

The right hand panel will contain a list of all possible patient matches, Double click a patient row to open their record.

If your patient has had previous pregnancies recorded on E3 you will see a list of pregnancies at the bottom of the screen. If there are no previous pregnancies recorded on E3 you will be taken directly into the patient record.
