E3 Maternity System

Previously Printed Reports

Some documents are printed when associated questionnaires have been completed, a print option box will pop up; click the Yes button to print.

If you need to reprint a copy of a booking summary or postnatal transfer report, and have not made any changes to the answers. Then you do not need to re-save the last question in the questionnaire to do so.

Open the patient record and click on 'Patient' in the menu bar and select Previously Printed Reports from the drop down list.

Select the most recently printed report from the Previously Printed Reports list.

The screenshot shows a software interface with a 'Previously Printed Reports' window. On the left, a tree view shows a folder structure: 'CarePath' > 'Antenatal Care' > 'Antenatal Admissions' > '12/03/2017 08:00 Wheal Fortune' > 'Antenatal Discharge [Discharged]' > 'Doc_AN_Discharge' > '[001] printed on 16-08-2017'. The main window displays patient details for 'Mabel P...' and a table of admission and discharge details.

ADMISSION AND DISCHARGE DETAILS			
Date & Time of Admission	12/03/2017 08:00	Admitted To	Wheal Fortune
Reason for Admission	Abdominal pain	Discharge Destination	Usual place of residence
