

# E3 - Questionnaires

## E3 Maternity System

### Questionnaires

Patient information, Clinic appointments, Admissions, Delivery Information are recorded in the questionnaires which can be found in the yellow folders within the patient record.

A small right facing triangle indicates that the questionnaire has been opened and not completed, double click to open and view. A green tick will appear next to the questionnaire indicating completion.

To enter information double click on the relevant questionnaire, for example the Past Medical & Surgical History, this will open the questionnaire, questions to be answered will be displayed on the left and answers to the question will be on the right, select your answer from the options displayed. Some answers selected may open up additional text boxes to be completed. Remember

to save your answer before going on to the next question.

The screenshot shows a software interface for medical history. On the left, a table titled 'Past Medical / Surgical History' lists various medical conditions under 'Question' and their corresponding answers under 'Answer'. The 'Cardiac Problems' row is highlighted, with 'Arrhythmia' entered in the answer field. Below the table, a timeline shows dates from August 2016 to August 2017, with icons representing different events like 'LMP', 'Booking Date', 'Final Discharge Date', 'Admitted', and 'Contact'.
