PAS Inpatient - Clinically Ready for Discharge

Clinically Ready for Discharge

This function should be used when a patient is ready to be discharge from hospital but are unable to leave hospital due to outside circumstances.

This information can be recorded via the Inpatient Stay Movements screen (H I S M).

From the **PAS IP Basic** menu, select Inpatient Stay Movements (**H I S M**) and Search for and select the patient. This will take you to the Inpatient Stay Movements screen.

From the prompts at the bottom of the screen enter **C L D** for CLinically ready for Discharge.

```
HICRD           CLINICALLY READY FOR DISCHARGE         v3 Train  CL

   Current name: HASSBURG, OTTO          DOB: 07-APR-1950   Sex: M
